hello@avlabs.dev

+12169057375

Problem-solver, front-end developer. Previous web UI designer for over 15 years. A lonely

freelance front-end dev looking for an all-star team to contribute to.

Willing to relocate: Anywhere
Authorized to work in the US for any employer

Work Experience

Front-End Developer / UI Designer

AV Labs-Remote
February 2016 to Present

• Developed and implemented responsive web applications using HTML, CSS, and JavaScript
• Collaborated with UX/UI designers to create visually appealing and user-friendly interfaces
• Optimized website performance by conducting code reviews and implementing best practices
• Utilized front-end frameworks such as React or Next JS to build dynamic web pages
• Integrated APIs and third-party libraries to enhance functionality of web applications
• Ensured cross-browser compatibility and responsiveness across different devices
• Improved page load times by optimizing images, scripts, and stylesheets
• Implemented accessibility standards to ensure compliance with WCAG guidelines
• Worked closely with back-end developers to integrate front-end components into the overall system architecture

Digital Marketing & Design Lead

Community Assessment & Treatment Services, Inc-Cleveland, OH
June 2023 to June 2024

• Designed and executed visually appealing marketing materials, including brochures, flyers, and social media graphics
• Collaborated with marketing team to develop creative concepts for advertising campaigns
• Managed multiple projects simultaneously, ensuring all deadlines were met
• Developed brand guidelines and maintained consistency across all marketing collateral
• Created engaging visual content for social media platforms, resulting in an increase in follower engagement
• Conducted market research to identify current design trends and incorporate them into graphic designs

US Navy Hospital Corpsman

US Navy
February 2011 to February 2016

• Provided immediate medical care and treatment to injured soldiers on the battlefield
• Administered life-saving interventions, including CPR, wound management, and intravenous therapy
• Assessed and triaged patients based on severity of injuries to prioritize medical attention

- Collaborated with a team of healthcare professionals to stabilize patients for evacuation
- Managed and maintained medical supplies, equipment, and medications in high-stress environments
- Trained fellow soldiers in basic first aid techniques to enhance overall unit readiness
- Performed emergency medical procedures under extreme pressure during combat situations
